From The Toes to the Head– Rain-drop Technique and Therapeutic Quality Essential Oils help to create a healthy environment within the body, encourage communication among the cells, help to remove toxins, clear blockages, and support emotional and physical health.

Oils have been used through the ages for Spiritual uplifting, Physical health, and Emotional well-being.

Understanding oils today could just be the answer to the many mutated disease organisms we contend with.

*“...and by the river..all trees... and the leaf thereof for medicine.”
Ezekiel 47:12*

From Head to Toe– Rain-drop and the Oils help to improve health

Center for Aromatherapy Research and Education—CARE

CARE The Center for Aromatherapy Research and Education, Inc. (CARE) is a non-

secular educational organization dedicated to assembling research and disseminating information on the healing properties and therapeutic applications of essential oils. This is accomplished by the sponsorship

of seminars, hands-on workshops, and the publication of various books and DVDs.

The focus of the program is to teach Raindrop Technique and associated skills, as originated and taught by D. Gary Young. This is accomplished through a series of

courses that anyone can take.

The CARE Program also offers the opportunity to become a Certified Raindrop Practitioner (CRP), a Licensed Spiritual Healer (LSH), a Board Certified Raindrop Specialist (BCRS), and/or a Certified CARE Instructor (CCI).

CARE is approved by the National Certification Board for Therapeutic Massage and Bodywork (NCBTMB) as a continuing education Approved provider of CE Hours for massage therapists. CARE is also an continuing education Approved Provider for nurses, doctors, and other health-care professionals through the International Association for Continuing Education and Training (IACET).

CARE Instructors are independent and must maintain quality standards and annual training requirements set by CARE. Classes are offered nationwide and globally as Individual Courses, Seminars or Intensives.

For more information on the CARE organization and program please see: www.RaindropTraining.com

Intensive Includes:

Chemistry of Essential Oils— Two sessions provide a look at the structures and functions of constituents in EOs and what science has shown to be their function. Students will gain an appreciation for the minute and magnificent choreography of molecules, plants and animals. (6 hours total)

Healing Oils of the Bible— EOs have been used for thousands of years, we look to scriptural references modern science and other historic materials to understand how they were used and why that makes sense. AND what oils did THEN, they can do today! (2 hours)

VitaFlex— Tibetan hand techniques that are used in Raindrop Technique. Brought to us by Stanley Burroughs, these techniques encourage neural communication throughout the body. (4 Hours)

Raindrop Technique Understand the development of the technique, the oils used and why, the specific techniques employed and the importance of such techniques to overall health. (Two 4 hour sessions)

Emotional Release— Historically the oils have been used in health and spiritual activities. They encourage the mind to open and can help to clear emotional traumas that may be causing physical issues or blockages in one's life. This class brings together the concepts from all the other sessions and provides a link of understanding of Mind/body/Spirit in health. (5 hours)

Seminars:

CARE instructors may offer all or part of the 25 Credits hours included in an Intensive. Al La Carte Prices apply or discuss with the instructor.

Teena Johnson— LMT, CCI, LSH

Teena is a Certified Instructor for CARE and a Licensed Spiritual Healer. Teena has been studying the oils and the body since 1999 when she was first introduced to the existence of true therapeutic quality oils.

Teena's initial use of the oils allowed her to eliminate chronic sinus infections, asthma medications, and antidepressants while also shedding 60 pounds of excess weight.

She was Immediately drawn to the oils due to learning in college chemistry that patented drugs are modeled after molecules found in healing

plants that have long been used by ancient cultures. Prior to finding Young Living, the "grocery store" oils she tried had been ineffective.

Teena's vision includes helping practitioners make use of these powerful techniques by learning to provide the service and by collaborating with others to expand acceptance of and access to natural health and wellness.

Classes may be arranged to suit the needs of your organization or you may register for classes as they are scheduled.. Check the CARE website or www.RaindropTexas.com for Teena's classes.
