Everyone participates

Verification of Eligibility

A. When registering, participant must provide evidence of completion of a full CARE Intensive (i.e., either a copy of the CARE Certificates or the CCI Handbook Application Form with dates and signatures).

B. Each participant is required to bring a generous assortment of YL Oils for use when facilitating sessions and for doing their own personal work in the training. When registering, a list of these oils is to be submitted for approval.

About Kathy

"Applied Aromatic Science captured my attention over a decade ago as I observed consistent, tangible results in my own life while using Young Living Essential Oils. It became my inspiration to question and explore possibilities through applications that address conditions and connections of the mind, body, and spirit."

Kathy holds multiple certificates from hands-on trainings with D. Gary Young and has extensive experience in implementing these healing techniques in private sessions. Since 2002, Kathy has also been active as C.A.R.E. Instructor.

"As I instruct CARE Intensives, participants from across the country often express much interest in my teaching a more advanced training. Beyond CARE was created in response to these requests. My passion is empowering others by passing along this knowledge and these skills through facilitating, teaching, and mentoring."

What Instructors Say About Beyond CARE

Linda and I have just returned from a truly outstanding training, under the most excellent tutelage of our fellow CARE instructor, Kathy Spohn. Her depth of knowledge, keen insight, vast experience and God-given anointing for this work, plus her ability to clearly transmit that to her students will greatly empower the serious learner to carry this healing work to a very high level. Wow!!! To have gained a much greater understanding of the whys and wherefores of the emotional release process and to be able now to incorporate all the additional tools we received along with the wisdom and discernment Kathy imparted to us distilled from her many years of daily work in this area, now that is awesome! We STRONGLY encourage everyone to attend one of Kathy's future "Beyond CARE" seminars as they become available. Those of us who participated in this seminar all agreed that it was powerful and a great privilege to participate in. We know this class has given us the abilities to see a much greater multitude of individuals set free, and that is exciting! Thank you Kathy!

~ Bruce & Linda Dietler, FCCI/SCCI, BCRS
Whitewater, Kansas

Thanks again for an incredible, life changing week of training. This Beyond CARE program had a profound transforming impact on me that I will be able to immediately put to work to help facilitate wholeness and healing of even the most difficult cases. Thank you for helping me understand the nuances of emotional release. Understanding the signs and symbols in the physical body and emotional responses allows us to directly support a client as they unravel their own personal story line and heal the body and mind at the deepest levels. Driving home all I could think was that I felt I had gone through an initiation. Instead of being intimidated, I am now excited about doing this work with others. I am so excited to be able to extend a loving and healing hand to my family and my community. Vacation was great, but Beyond CARE was even better! Thank you.

~ Nancy Gouch, BCRS, FCCI, LSH, Wheaton, Illinois

The Beyond CARE Training was fantastic!!! I highly recommend this program to everyone!! This important class allows time to experience and experiment with various tools and helped pull things together for me. We did a lot of "playing" with new techniques and had a blast putting it to action. There were many life-changing experiences that we as a group witnessed, as well as in our practice sessions. I believe it is beneficial for us to learn more about what's possible and this seminar provided that platform. I'm looking forward to continuing the work.
